LevelPlay Ads Setup Part-1
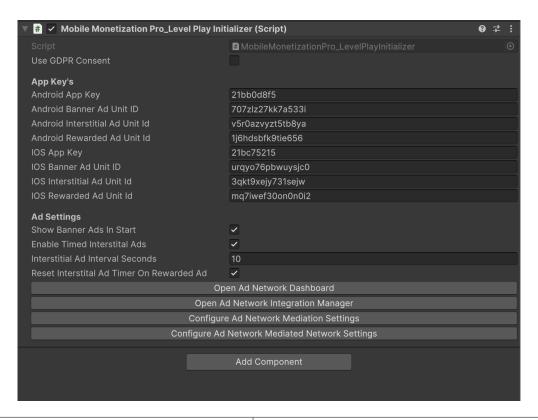

Introduction

In this video, you'll learn how to integrate **LevelPlay** ads into your Unity mobile game. We will cover the following key concepts:

- **Setting up LevelPlay**: Learn how to create an account and set up your project in LevelPlay.
- **Integrating LevelPlay SDK**: A step-by-step guide on adding the LevelPlay SDK to your Unity project.
- **Ad formats**: Understand the different types of ads available (banner ads, interstitials, rewarded videos) and how to implement each one.
- **Testing on android and iOS**: We will test the game on both Android and iOS device.

By the end of the video, you'll have a fully functional ad setup in your game.
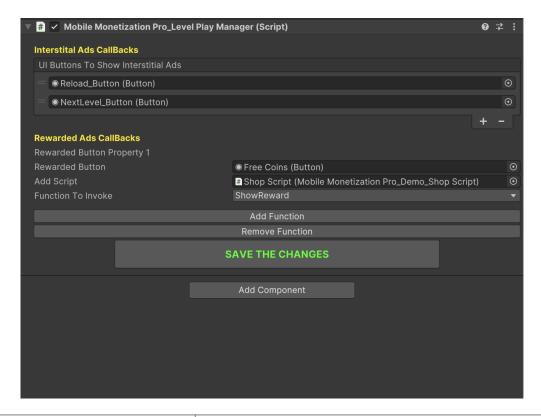

LevelPlay Ads Initializer
